

Microcosmic Libido

Stronger and higher
My breath resounds
My skin is drenched from sweat
Facial hair
Coarse and painful
Inflaming my neck
Pouting lips
Layers wrap layers of flesh
Reptile of skin
Indian eyes
Silently cries
For lost open air skies
Flowing curls
Entangled swirls
Caress my neck and brow
Fluids flow through me
My feet become foggy
My arms are the clouds
The sun is my penis
Hot and piercing
The moon is my testicles
Hanging in moody glow
Control my tide of sperm
Sea of life
The sun penetrates the vacuum of space
Vagina of time
Giver of life
